

Cures4Humanity Inc. Executive Summary

If you had technologies to benefit the people of this world,

What would you do...?

Cures4Humanity (C4H), founded by Eric Williams & Cylk Cozart February 2013, provides a mass-produced turn-key global sustainable infrastructure encompassing the four basic needs of food, water, power, and housing. C4H owns 250+ innovative technologies, methodologies with more than 100,000 markets to sell 7 global C4H brands built exclusively by 52 CH4 subsidiaries. These brands were created to be departmentalized and monetized for investment purposes. C4H produces in abundance at the local level and on a global mass scale: The Big 4:

Food • Water • Energy • Housing

AFFORDABLE & SUSTAINABLE INFRASTRUCTURE SERVICES

EMPOWERING LOCAL CONSUMERS & ECONOMIES TO THRIVE

Cures4Humanity's Seven Brands

Cure4Hunger.com

Gravity Garden Domes invented by Cure4Hunger (C4H) grow more crops per square foot annually than other known venue. Twenty thousand fruits, vegetables, herbs, spices, flowers, trees, bushes, and plants are grown 22% to 43% faster per crop cycle, utilizing a gravity watering system and replicated growing environments inside C4H disaster proof domes. At costs ranging from \$775,000 to \$13.5 Million, The domes are designed to earn \$7M to \$450 million in annual profits. 220 "Tier-5" Gravity Garden Domes can produce \$1 Trillion annual profits. The domes are managed via C4H Harvest Software using Blockchain for transparency from seed to consumer.

Cure4Water.com

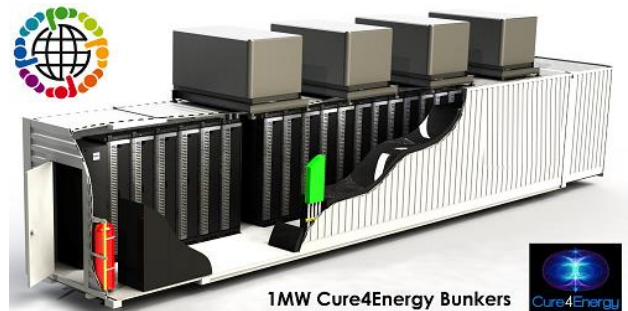

Cure4Water (C4W) Atmospheric Generators harvest 200 or 2,000 gallons of clean fresh water daily virtually anywhere in world giving all citizens access to fresh drinking water year round. 2,000 Gallon Water Generators run on only 12kW per day, have a 40-year lifespan, and come with a 20-Year Warranty. Generators are available **in stock and ready to ship** for Joint Venture Bottlers or Water Stations in exclusive regions worldwide for \$38,575 for 200-gallon generators and \$385,750 for 2,000-gallon generators. The cost over 40-years equates to \$0.02 cents per gallon.

Cure4Energy.com

Cure4Energy Magnetic Bunkers are now shipping, available in mass production with **25-year warranty**.

| | | | |
|------------------------|--------------------------|-------------------------|----------------------------|
| 100kW \$572,000 | 300kW \$1,453,000 | 1MW \$3,410,000 | 50MW \$149,250,000 |
| 200kW \$925,000 | 500kW \$2,590,000 | 5MW \$14,925,000 | 100MW \$298,500,000 |

These units are available for Joint Venture contracts only. The energy source is encased in C4H Energy (C4E) Bunkers at C4H Power and Water&Power Stations www.C4HWaterPower.com, providing electricity via C4E shoebox-size house batteries with 4 AC-Outlets, or XL 24kW redundant batteries for industrial complexes. The 40-Foot Anti-EMP Energy Bunkers have 100kw to 1MW residing underneath both Power and Water&Power Stations. Buildings and malls are encouraged to build stations adjacent to their structures have direct access to electricity via PPA, Battery Recharging Stations for consumers and businesses including dedicated bunkers provide clean, green energy back to the nation's grid.

1MW Cure4Energy Bunkers

Coming Q2 2020

Cure4Housing.com

Cure4Housing is a Joint Venture with SafestHouse Design Labs, invented a new **100-year warranty home** design at only **\$7.29 per square foot**. These homes are scalable, **natural disaster proof, fireproof**, mold proof, and flood proof up to 3.8 feet or higher based on region. The innovative homes / rooms are 314 sf, 600 sf, 900 sf or 1,700 sf and scalable to any size connecting these rooms via hallways. Costs range from \$2,289 USD for a 314 sf home up to \$72,900 USD for a 10,000 sf home. Minimum quantity of 100 homes. **SafestCities Hotels has signed a global license for all locations.**

Cure4Farmers.com

Providing Farmers direct access to C4H Gravity Garden Domes via Joint Ventures on all Tier 1, 2 & 3 Crops earning 50% in perpetuity to pass on to family's future generations using only a single acre of existing farmland. Each Food Dome employs up to 15 Farming Technician's a good wage with profit sharing.

Cure4Plastic.com

90% of all food packaged is made of plastic. Cassava Root is an excellent biodegradable alternative for bags and food packaging with 25-year shelf life including new water bottles.

Cure4Forest.com

C4H Gravity Garden Domes can repopulate forests by growing and transplanting 7,350,000 trees annually.

Ready for Mass Production

Sustainable Infrastructure C4H invented innovative manufacturing methods to produce abundant resources at the local level, creating a self-reliant supply chain with continuous harvesting of food, water, energy and mass produce affordable housing.

About Cures4Humanity Inc

Celebrating 6-years of significant research and development led C4H to obtain over 250 trade secrets, inventions, protocols and methodologies, including partnerships with exclusive technologies to complement their own. Importantly, C4H has zero debt. This includes all company assets, patents, and inventions. Twenty-five partners raised the necessary capital and sweat equity in 2013 and 2014, then fifty equity partners provided funding for 2015 through 2016 to departmentalize and monetize the 44 subsidiaries raising capital to subsidize research and development for 2017 and 2018. Twenty-five percent equity in 49 subsidiaries is reserved for future expansion globally when C4H's valuation is significantly higher. C4H has 7 larger, next generation technologies being released in 2019 and Q1 2020.

Cures4Humanity Communities

C4H Communities are 2,000 Homes on 200-Acres for developing countries with Water, Energy, Food and complete Infrastructure. 1,000 square foot homes with 4 Bedrooms and 3 Bathrooms for up to 14,000 Residents with 2 Elementary, 1 Middle and 1 High School plus 30 Adult Classes, 100 Parks & Urgent Care.

All Cures4 Brands provide Joint Ventures in 180 countries and island nations

Food, water, energy, and housing are daily needs, not wants. C4H brands and services will produce brand loyalty for generations to come by introducing planet friendly products. Local economies will flourish with access to Cures4Humanity products and services worldwide. Building infrastructure today, C4H will bring sustainability at the local level tomorrow.
